

**EXAMINATION SCHEDULE  
FALL SEMESTER, 2009**

Below you will find fall semester exam dates for all courses in which I believe an exam might be given. The final determination of whether a professor will use this time slot or some other testing mechanism will be made by the instructor. Thus, a course's listing here does not constitute a decision by the instructor to give an in-class exam. But if an in-class exam is given, that is the date it will be administered.
