semester year

Directions: The Capital Assistance Project is outside the law school's point allocation process and enrollment is limited. Admission to the Project is by instructor's permission. Four placements are usually available. While I cannot guarantee a specific placement, I try to accommodate student preferences. Please indicate your agency preference below by placing a number from 1 to 4 beside each agency. (1=most preferred, 4=least preferred.) If you would not like to work at a certain agency, place a "0" beside that agency. If you have no preference between two agencies, give them each the same rating (i.e. you might have two agencies rated "1" then a "3" and a "4"). You may want to wait to complete this part until **after** you have talked with me.
