[1] JURI 4384 Accounting and Finance for Lawyers will be a recommended JURI course for students, though not a required course.

Unless otherwise noted, specific courses listed above are required courses in either the School of Law or College of Family and Consumer Sciences. The order of taking any of the courses in the course of study may change due to scheduling changes or reforms at either the School of Law or College of Family and Consumer Sciences or scheduling needs of the student, as approved by the appropriate administrator at the School of law or the College of Family and Consumer Sciences. No courses taken prior to matriculation to the School of Law can count toward the Juris Doctor credit hour requirements, pursuant to ABA Standard 311(d).

Other Requirements
As part of their coursework, as set forth above, students will need to satisfy the School of Law's writing requirements (including a drafting course and capstone writing requirement) and take at least six credit hours of practical skills courses (as set forth in the School of Law's student handbook). These requirements are subject to change pursuant to ABA accreditation rules.
