

SUPERVISED RESEARCH

Submission of this form DOES NOT automatically register a student for the course. This form must be submitted before the student is cleared for registration. Please allow 24 hours for the request to clear. An email will then be sent to the student including the registration CRN. The student is then responsible for adding the course on Athena prior to the end of the drop/add period.

By my signature below, I certify that I understand that Supervised Research requires the completion of a research paper of at least 20 pages (see handbook for complete details). This paper should be submitted to the supervising professor by the end of this academic term. I am aware that a maximum number of FOUR (4) total credits for Supervised Research and Independent Project combined may be applied toward the Juris Doctor degree.

I understand and acknowledge that an hour of academic credit represents approximately three hours per week of academic engagement, averaged over 15 weeks, and that academic credit will not be given to projects that do not meet this requirement. I further certify that I expect this supervised research to represent this level of academic engagement.

The topic of my Supervised Research is (title or brief description):

Student Acknowledgment and Certification

Professor Acknowledgment and Certification

Student (sign and print name) and date

Professor (sign and print name) and date
